Introduction

This publication lists all known official or unofficial names and those allocated but never carried, of Locomotives, Multiple Units, Coaching Stock, Departmental vehicles, Track Machines, Snowploughs and Light Rail / Trams are listed. For clarity Multiple Units are split into separate categories, DMUs, DEMUs and EMUs. Again for clarity, allocated names never carried have also been put to the end of each category.

Part 1 lists names in numerical order by type of vehicle, whilst Part 2 lists them all in alphabetical order. Names on Multiple Units are shown by the individual car number as well as the set.

Data is listed under the following column headings:

Part 1 : **vehicle number - code - name - naming date - de-naming date or current**

Part 2: **vehicle number - type of vehicle - name.**

If a loco carries both its TOPS and D number at the same time, these are appended with bracketed suffixes eg. (also carries Dxxxx) and (also carries xxxxx) respectively. If a loco is re-numbered from its TOPS number back to its D number then this is included as a separate entry.

An extra code **ADV** has been introduced to Part 1 of this edition for advertisements in the form of nameplates. This supplements the three new codes added in the previous edition **NWL**, **FNC** and **LOG**, the latter which has now been amended:

List of codes (Part 1):

ADV	advertisement in the form of a nameplate eg. EROTICA G-MEX 2004
F	name carried on front of vehicle
FNC	represents function names, but only vehicles carrying a specialised style eg. 4668
I	name carried inside vehicle
IoW	Isle of Wight ex-London Underground
LOG	is shown where a name is added to an existing logo
NWL	recognised 'names within livery'
R	re-named / re-dedicated (with exactly the same name)
U	unofficial name
Z	unofficial re-name or preceding an official name
X	name allocated but not carried (* loco not built)
xxx	actual loco not designated – class only shown - e.g. 47xxx
